MINERAL DETOX

GENERAL INFORMATION

Category: technological additives

Functional group: binders,
anticaking agents

Form: powder

Shelf life: unlimited

Package: 25 kg bags

Storage: in a dry place

CHARACTERISTICS, INGREDIENTS

Granulometry

Tribomechanically activated **CLINOPTILOLITE**

Heavy metals (Sb, Pb, Cd, Zn, Cu)

100% < 50 µm

min. 84 %

< 0,1 mg/kg

USAGE

Treatment / prevention of diarrhea

Stabilizes pH value in rumen/ digestive tract

Technological additive/ anticaking agent

Add directly into total feed mix

Production of premixes

Colostrum additive/ additive in milk for calves

MANUFACTURE DATE:

APPLICATION/DOSAGE

Add directly into total feed mix:

- pigs 2 - 7 g/kg feed, poultry 2 - 5 g/kg feed, livestock 150 - 250 g per head daily
- as an additive for complementing the formulation 0,2 – 0,5%

Diarrhea prevention: 2 – 5 kg/t feed

Diarrhea treatment: 3 – 7 kg/t feed

Colostrum additive: 1 g/kg

Use solely for animal alimentation.

Country of origin: **Slovak Republic.**

Eco - product
